EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Richard Fichter on 16 February 2005.

The application has been amended as follows:

In the claims:

Amend claim 1 and claim 6 as follows:

1. (Amended) A substrate carrying device, in cooperation with at least a substrate, comprising:

two end plates having a plurality of fixing holes and mounting holes defined in the two end plates;

at least two partition plates each having side faces, side edges and a plurality of parallel slots wherein said parallel slots are formed on each side face of said partition plates to receive said substrate, and at least a mounting pin is disposed on one side edge of said partition plate to securely fix said partition plates in said mounting holes and firmly hold said partition plates between said two end plates;

a plurality of assembling units;

a plurality of fixing poles having binding holes for locking engagement with said assembling units so that said fixing poles are secured between said two end plates; and
at least a bottom rail having a ~~plurality of fixing pins at two ends~~ fixing pin at each
end thereof wherein said bottom rail is secured between said end plates and said partition plates by means of said fixing pins to support said substrate.

6. (Amended) The substrate carrying device of claim 1, wherein said partition plates is are higher than said substrate.

In the Drawings:

The following changes to the drawings have been approved by the examiner and agreed upon by applicant: Fig. 6 required the inclusion of the legend "Prior Art". In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

The following is an examiner's statement of reasons for allowance: Claim 1 includes both fixing poles and bottom rails as recited:

"a plurality of fixing poles having binding holes for locking engagement with said assembling units so that said fixing poles are secured between said two end plates; and
at least a bottom rail having a ~~plurality of fixing pins at two ends~~ fixing pin at each
end thereof wherein said bottom rail is secured between said end plates and said partition plates by means of said fixing pins to support said substrate."

Art Unit: 3728

The prior art does not show this structure in a substrate carrying device also having two end plates and at least two partition plates.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jerrold Johnson whose telephone number is 571-272-7141. The examiner can normally be reached on 9:30 to 6:00 M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mickey Yu can be reached on 571-272-4562. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
